Subject: PH Managers meeting?
Date: 08/29/2006 07:46 PM

Eric, Chip,

After talking with Jim and Bob today, they concluded that there were several issues that could be discussed at tomorrow's proposed meeting, which could just as easily be handled via a phone call or email. Are there any issues that you would like to meet and discuss tomorrow? If so, please send me these agenda items. If you do not have anything that needs immediate discussion in person, we suggest just waiting until the regularly scheduled PH Managers meeting.

thanks!
valerie

This communication is made under the framework of the LWG Participation Agreement and in the parties' common interests in meeting LWG member obligations under the Administrative Order on Consent and in anticipation of litigation concerning liability for the Portland Harbor Superfund site. This communication is intended and believed by the parties to be part of an ongoing and joint effort to develop and maintain a common legal strategy and contains strategies, work product and legal advice within the "common interest" extension of the attorney-client privilege and the work product doctrine. This communication may include attorney-client communications. With respect to communications by private LWG members to public members, those communications are with the expectation that they will be kept confidential by the public entities. The information is intended to be for the use of the individual or entity named above. If you are not the intended recipient, please be aware that any disclosure, copying, distribution or use of the contents of this information is prohibited. If you have received this electronic transmission in error, please notify us by electronic mail at voster@anchorenv.com.

Subject: Lamprey and Sturgeon Data Collection

Bob, Rick, and Jim

The attached letter provides direction to the LWG on the Round 3A data collection for lamprey and sturgeon, and objectives for each of the data collection and evaluation efforts. EPA and its partners look forward to working with you in developing the FSPs (including the LWG's recently submitted ammocoete tissue FSP).

Please let us know if you have any questions.

Chip
